MORE STEAMERS.

Contracts Awarded For Steamers By, the Government.

Contracts were awarded Thursday by the railroad administration for six towing steamers and 40 steel barges for use on the Mississippi and Black Warrior rivers. The total price was \$6,170,000, and deliveries are to begin within two months after steel is received by the builders, and to continue for twelve months after that time. Four of the steamers are to be of the tunnel screw type, 200 feet long and 40 feet wide with a draft of six feet, while the other two will be stern wheel vessels 256 feet long. 48 feet broad and with a draft of 10 feet. The barges will have a carrying capacity of 2,000 tous each in eight feet of water.

These are the first steamers and barges ordered by the railroad administration for the Mississippi-Warrior project, which are designed to relieve railroads of part of the carrying burden in the middle west and the south.

PLAN FIFTH LOAN.

Long before the Fourth Liberty Loan figures were counted up or the honor flags distributed, or the money pald in preparations have been started at the Treasury for the Fifth Liberty Loan.

The date has not been determined, nor the amount nor any other features. The only certain knowledge is that there will be another, and that it probably will come in the spring of 1919—in March or April. Whether present German maneuvers for peace are successful or not, the government by that time, will need more billions to pay the war costs, which can decrease only gradually, even if cessation of military effort should come. Within a few months, the treasury will again be issuing new certificates of indebtedness as a means of financing itself, and by next spring the accumulated billions of these must be redeemed out of proceeds from the sale of more bonds.

GIRLS! ITS YOUR STEP THAT ATTRACTS!

Says women pay too much heed to their face instead of their corns.

Watch your step! A brisk, lively step is what charmes more than a lovely skin, but your high heels have caused corns and you limp a little. That's bad, girls, and you know it. Corns destroy beauty and grace, besides corns are very easy to remove. Rid your feet of every corn by ask-

ing at any drug store for a quarter of an ounce of freezone. This will cost little but is sufficient to remove every hard or soft corn or callus from one

A few drops applied upon a tender

This freezone is a gummy substance which dries instantly and simply shrivels up the corn without inflaming or

even irritating the surrounding skin. Women must keep in mind that cornless feet create a youthful step which enhances her attractiveness.

THE LAND OF OPPORTUNITY

This body of land is located six miles west of Hickman, on the C., M. & G., four railroad stations in easy access of the place. None of this land is further from a shipping point than 1 1-2 miles. Land fully protected by good government levee and has perfect natural drainage into Reelfoot Lake. A reference to the map above will show the different size farms, location, roads, etc. Three tracts of this land were sold (see map) three years ago, and this land now cannot be bought for \$125 per acre.

The land of staple cotton, corn, oats, wheat, clover and alfalfa. The land of prosperous and contented farmers, a soil as rich as the valley of the Nile, where all crops of the Temperate Zone are grown in great abundance.

The division of this land to be sold at public auction presents a ONCE-IN-A-LIFETIME OPPORTUNITY TO THE HOME SEEKER AND INVESTOR. A hint to the wise is sufficient. Get busy. Investigate. The Mississippi Delta's climatic conditions, and long grazing seasons, are ideal for the live stock industry, along with general farming.

Prospective buyers will be shown land, free of charge, any time prior to sale day from Hickman or Bondurant.

For further information call or write B. G. Hale Sr., Hickman, Ky.

This land represents much merit of location and productiveness. They will sell without reserve. Title good.

PRESIDENT WOODROW WILSON

A. O. STANLEY.

HON, A W. BARKLEY.

President Appeals to People to Elect Stanley and Barkley

My Fellow Countrymen:

The Congressional elections are at hand. They occur in the most critical period our country has ever faced or is likely to face in our time. If you have approved of my leadership and wish me to continue to be your unembarrassed spokesman in affairs at home and abroad, I earnestly beg that you will express yourselves unmistakably to that effect by returning a Democratic majority to both the Senate and House of Representatives.

"I am your servant and will accept your judgment without cavil, but my power to administer the great trust assigned me by the Constitution would be seriously impaired should your judgment be adverse, and I must frankly tell you so because so many critical issues depend upon your verdict. No scruple of taste must in grim times like these be allowed to stand in the way of speaking the plain truth.

DIVIDED LEADERSHIP

"I have no thought of suggesting that any political party is paramount in matters of patriotism. I feel too deeply the sacrifices which have been made in this war by all our citizens irrespective of party affiliations to harbor such an idea. I mean only that the difficulties and delicacies of our present task are of a sort that makes it imperatively necessary that the Nation should give its undivided support to the Government under a unified leadership and that a Republican Congress would divide the leadership.

"The leaders in the minority in the present Congress have unquestionably been pro-war, but they have been anti-administration. At almost every turn since we entered the war they have sought to take the choice of policy and the conduct of the war out of my hands and put it under the control of instrumentalities of their own choosing.

"This is no time either for divided council or for divided leadership. Unity of command is as necessary now in civil action as it is upon the field of battle. If the control of the House and the Senate should be taken away from the party now in power an op-

The Rev. E. L. Miley, First Christian Church, Hickman, Ky .:

posing majority could assume control of legislation and oblige all

"The return of a Republican majority to either House of the Congress would, moreover, be interpreted on the other side of the water as a repudiation of my leadership. Spokesmen of the Republican party are urging you to elect a Republican Congress in order to back up and support the President, but even if they should in this impose upon some credulous voters on this side of the water, they would impose on no one on the other side.

It is well understood there as well as here that the Republican leaders desire not so much to support the President as to control him.

"The people of the allied countries with whom we are associated against Germany are quite familiar with the significance of elections. They would find it very difficult to believe that the voters of the United States had so chosen to support their President by electing to the Congress a majority controlled by those who are in fact not in sympathy with the attitude and action of the Administration.

FOUL MURDER.

Fisherman Found With Bullet Wounds and Hammer Prints Back of Head.

Company Commander Allen V. Ferris, of Great Lakes Naval Training Station, spent the first of the week here and at Tiptonville in a vain attempt to get some clue to the murder Hickman, \$5000. of his father, Allen Ferris, Sr., who was assassinated on the 17th inst. on 145 acres on Dyersburg road, \$8006 Winchester chute several miles below and other consideration. Hickman and in the jurisdiction of New Madrid county, Mo.

Piecing the story together it seems that the senior Farris was a well-todo citizen of Decatur, Ills., and also owns 4000 acres of land in Texas. He was fond of fishing, and followed it is a pleasure rather than a livelihood The pursuit of this pastime brought him to this section some five years ago and he has been here "off and on" since. He was well known to all the river men of this section; also a numher of others.

Just previous to his tragic end, he had a gasoline engine and some other \$168. property stolen. At the same time Hart McColgan, of Hickman, also lost some nets. Mr. Ferris went on a stil! hunt and located the property and made an engagement with Mr. McCol- interest in Nasil Prather land, 190 gan to go with him to recover their stuff. They were to leave Hickman Thursday morning about 2 o'clock but, on account of sickness, McColgan failed to show up, and Mr. Ferris left tione. The last person here who saw him alive was Policeman Joe Wall, who went down to the river bank and helped him to get off. His body was found next day in a skiff. There were three bullet holes in his head and the skull was crushed as though hit with a hammer. The ambush or assassina tion took place in the same vicinity where Henry (Dutch) Gerkin was shot and mortally wounded and Victor Amberg, in company with him, was also severely wounded last May.

It is the concensus of opinion that the same gang committed both crimes -although dead men tell no tales. It was unfortunate that the man made the bold attempt alone to recover the stolen property. The wounds showed plainly that he was shot from behind, and most likely from ambush.

The remains were carried back last week to Decatur for burial. The man leaves eight children, and was 54

Men who we know to be both reliable and brave say that it is foolhardy for even a half-dozen men to go in a certain section of New Madrid county in quest of stolen stuff. It is alleged that a band of regular outlaws rendezevous there and are in sufficient strength to get away with their dastardly deeds. It would seem that even the officers are afraid to go after them, as the Ferris case has not been run down and in the killing and wounding of others in May the gang has gone unpunished. It certainly cannot be for lack of evidence in the latter case. In the Farris affair, fortunately the deceased failed to state who had his property, although he knew where it was and who had it. There have also been others killed in the same section in recent months, A whole-souled, big-hearted citizen and the murderers go on with impuof Hickman has authorized the Courier nity. EMINENT MINISTERS INDORSE STANLEY FOR SENATOR

All Other Issues Must Give Way, Says Dr. W. W. Landrum, One of Louisville's Foremost Temperance Advocates.

Dear Brother:

read to-day a report of a certain of resolution said to have been passed by the Western Baptist Association.

The title of the paper's report is I believe our brother Gatliffe voted I believe our brother Gatliffe voted.

"Vote as You Pray."

All Baptists should vote as they pray. Just now the burden of our prayer should be that the world may be made safe for democracy. Lloyd George, premier of Great Britain, as you know, the most distinguished Baptist in the world, wrote Mr. Coleman, president of the Northern Baptist Convention: "Teil the Baptist brotherhood that we are fighting for Baptist principles."

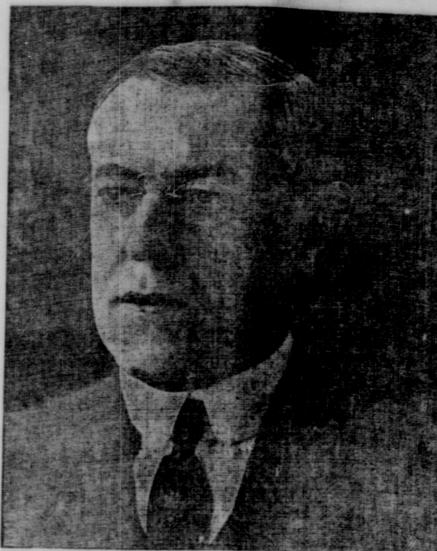

Baptist principles."

Baptist principles are democratic principles. Democratic principles are to-day in this country in the hands of the Democratic party. A Democratic President is the nouthpiece of that party. His word will close the war and determine matters after the war. Behind him every lover of democratic principles should stand to-day.

WILSON WANTS STANLEY TO HELP HIM WIN THE WAR

Wilson Wants a Democratic Senate To Conclude An Early and Victorious Peace.

Wilson Wants a Democratic Congress To Aid Him In Bringing the Boys Back Home.

Supported by a Senate in thorough accord with his wise policies and lofty ideas, Woodrow Wilson will speedily bring peace and order to a distracted world. This glorious day will be delayed if he and his party are repudiated at the polls and Lodge and Penrose and their faithful follower, Dr. Bruner, are permitted to heckle and harass him. Every day's unnecessary continuance of this struggle means the loss of precious lives, means weary hours of waiting for the return of our

Support Wilson, his party and his followers for the sake of our brave boys abroad; indorse him for the sake of their loved ones at home. Gladden the great heart of the first citizen of the world by a vote of confidence on November 5.

Stanley Indorsed By Labor

It is my most earnest wish that Mr. Stanley may continue to serve all of the people of the nation, and particularly the wage earners as an official representative in public office. SAMUEL GOMPERS, Fraternally yours. President American Federation of Labor.

Cadiz Minister Exposes Campaign Canard

My attention has been called to a statement in the Louisville press that all six preachers in our town were opposed to the election of Stanley as Senator. The author of that pronouncement had never consulted me. I am not a Democrat in politics, and am not now interested one hair's-breadth in the partisan phases of this campaign. But my sober judgment of the issues involved compel me to favor the election of Mr. Stanley in preference to Mr. Bruner. Certain Baptist Associations in Western Kentucky have seen fit in the exercises of their inalienable right to urge our people to vote against Mr. Stanley, but to that advice I cannot consent.

ley, but to that advice I cannot consent.

The Prohobition question is a negligible matter in this campaign. That issue has reached such a stage that no matter which man is elected, his vote will fall on the right side. Mr. Stanley's personal habits—past or present—do not determine on which side his vote will be cast. When ration-wide prohibition comes to a vote, good sense and good politics will put Stanley on the prohibition side. But, were his vote known to be against nation-wide prohibition, I should still emphatically favor his election.

The support of the President in the prosecution of this war is also a secondary matter. Both Mr. Bruner and Mr. Stanley can be depended upon to fight this war through to a finish. In the present fever-heat of American patriotism, it would not be good sense or good politics for a Senator not to do se. Were the patriotic prosecution of this war the issue between these two mea, I would not turn my hand over for the difference between them.

over for the difference between them.

over the patriotic prosecution of this war the issue between these two mea, I would not turn my hand over for the difference between them.

The issue in this campaign is greater and more vital than either of the things named. That issue is this: Shall certain definite ideals of social, economic and political justice for the world be realized. For the first time in many years we seem to have a President whose thinking is as clear and thorough as his purpose is positive and unshakeable. Thinkers and idealists to whom this era of justice has been a pleasant dream, and who have been somewhat skeptical of all politicians and their promises (even of Wilson at the outset) are now confident that they have as a President a man whose thought moves on as lofty a pitch as theirs, and who also has the political acument to translate those ideals into legislation. OUR CONFIDENCE IS IN WOODROW WILSON. Let me quote from a recent magazine issue:

"Progressive citizens of whatever party have adopted President Wilson as their leader."

The crucial matter in this campaign is not what Stanley or Bruner will do while the war is on, but what they will do when the war is ended. Either man will fight the war through to a finish—it would be his finish if he did not. But, the probabilities are that one man would follow the leadership of his party chieftain and go WHERE WOODROW WILSON IS GOING, while the other man would line up with one of the two sections of the Republican party. It is on that "probability" that I FAVOR WHOLE HEART-EDLY THE ELECTION OF STANLEY AS OUR SENATOR. Wilson has the ideas and the ideas; he needs now the chance to put them into law. I am for giving him the MAN HE WANTS so that full responsibility can be thrust on him for any failure, if there is failure.

To my mind these vast and world-significant matters of social justice, of economic right, of political liberty demand with compelling voice that every man who loves his fellow shall vote for Stanley as a Sincerely, LESLIE L. SANDERS, Pastor First Baptist Church.

During The Spanish-American War,

ROOSEVELT SAID:

"A refusal to sustain the President this year will, in the eyes of Europe, be read as a refusal to sustain the war. "

If THEN, Why Not NOW?

BECKHAM BACKS STANLEY

I have left the most pressing and urgent duties at the National Capital and traveled a thousand miles to bring to you this message that your President and his associates are watching with anxious and intense interest the outcome of this election in Kentucky and are hoping that you will not fail to show your appreciation of the splendid work which has been done by giving a vote of confidence on the November election day and electing to the Senate SENATOR J. C. W. BECKHAM. Gov. A. O. Stanley.

World Will Consider Election of Republican Congress a Repudiation of Wilson President Says "A Vote For Bruner Is a Vote Against Me." Democratic Defeat Would Hamper Nation At Critical Time.

"The Congressional elections are at hand. They occur in the most critical period our country has ever faced or is likely to face in our time. If you have approved of my leadership and wish me to continue to be your unembarrassed spokesman in affairs at home and abroad, I carnestly beg that you will express yourself

unmistakably to that effect by returning a Democratic majority to both the Senate and House of Representatives.

"I am your servant and will accept your judgment without cavil, but my power to administer the great trust assigned me by the constitution would be seriously impaired, should your judgment be adverse, and I must frankly tell you so because so many critical issues depend upon your verdict. No scruple of taste must in grim times like these be allowed to stand in the way of speaking the plain truth.

Divided Leadership.

Thave no thought of suggesting that any political party is

paramount in matters of patriotism. I feel too deeply the sacrifices which have been made in this war by all our citizens irrespective of party affiliations to harbor such an idea. I mean only that the difficulties and delicacies of our present task are of a sort that makes it imperatively necessary that the nation should give its undivided support to the government under a unified leadership and that a Republican Congress would divide the leadership.

"The return of a Republican majority to either House of the Congress would, moreover, be interpretative on the other side of the water as a repudiation of my leadership. Spokesmen of the Republican party are urging you to elect a Republican Congress in order to back up and support the President, but even if they should in this impose upon some credulous voters on this side of the water, they would impose on no one on the other side. It is well understood there as well as here that the Republican leaders desire not stood there as well as here that the Republican leaders desire not so much to support the President as to control him. "The people of the Allied countries with whom we are asso-

elections. They would find it very difficult to believe that the voters of the United States had so chosen to support their President by electing to the Congress a majority controlled by those who are in fact not in sympathy with the attitude and action of the

For Sake of Nation,

In ordinary times I would not feel at liberty to make such an appeal to you. In ordinary times divided counsels can be endured without permanent hurt to the country.
